PROFESSIONAL SUMMARY

Senior Business Analyst with 15+ years bridging business and technical teams to translate requirements into effective solutions across FinTech, Pharma, Healthcare, and E-commerce, earlier building 15+ years of client-facing leadership in Tourism, Healthcare patient services, and Corporate/Government sales. Expert in requirements gathering, process improvement, and data analysis. Proven ability to document functional specifications, drive process optimization, and support the full project lifecycle from requirements to UAT, collaborating with global, cross-functional and remote stakeholders.

WORK EXPERIENCE

Business Analyst | Globant

Aug 2021 - Apr 2026

• Generative AI QA — Business Analyst & Technical Lead (Jan–Apr 2026):

- Elicited and analyzed business requirements for an AI-powered web application, translating them into detailed user stories and acceptance criteria.
- Facilitated stakeholder demos and workshops to validate requirements and solution alignment.
- Authored functional documentation supporting end-to-end delivery of the AI solution.

• Fiserv & IPG LATAM Payment Gateway — Business Analyst (2023–2026):

- Gathered and documented functional requirements across regions for a payments platform, coordinating with cross-functional Onsite/Offshore teams.
- Performed data analysis and process mapping to support solution design and implementation.
- Managed requirements and reporting artifacts in Jira, Xray, and Confluence, supporting delivery and release readiness.
- Acted as liaison between business and technical teams, ensuring alignment on scope and quality.

• CeriFi, E-Learning — Business Analyst (2022–2023):

- Defined and documented business requirements and acceptance criteria with an E-Learning client, applying Kanban with weekly client demos.
- Collaborated with teams to support solution delivery, passing audits with no findings and earning client praise.
- Analyzed processes to improve team efficiency by 20%.

• CNA, Insurance — Business Analyst (2022):

- Authored BRD and functional documentation to shape solution strategy for an insurance portal.
- Managed the client relationship and gathered requirements for end-to-end delivery.
- Applied requirements-driven analysis to reduce detection time by 40% through shift-left practices.

• VIX OTT App, Streaming — Business Analyst & QA Focal (2021):

- Joined at project phase 0, translating business requirements into test plans and user stories across Android mobile, Google TV, and Fire TV.
- Authored functional documentation and user stories in Xray with clear acceptance criteria (Given/When/Then).
- Supported UAT and validated incremental feature releases across three platforms.

• Mentorship:

- Certified QC Lead and Career Mentor, guiding 20+ mentees in career development.
- Supported 80% of mentees in achieving a promotion within 18 months.
- Delivered AI learning sessions and coached teams on Scrum practices and cross-functional collaboration.

Business Analyst | Wunderman Thompson

Mar 2021 - Aug 2021

Client: Janssen (J&J)

- Led QA for pharma digital marketing assets (websites, email campaigns, and more) under FDA and GxP compliance, delivering weekly to meet client and regulatory requirements.
- Ensured 100% regulatory adherence across 4 product launches and 120+ deliverables.
- Executed exploratory, black box, white box, smoke, and acceptance testing across Litmus, On Acid, VEEVA CRM, and Salesforce.
- Conducted RCA on critical defects, cutting recurrence by 30% and shortening release cycles by 2 weeks.

Senior Business Analyst | QA Analyst | ST Consultores

Mar 2011 - Jan 2020

Client: BPS – Banco de Previsión Social (Uruguay)

- Elicited requirements through interviews, workshops, and document analysis for government financial modules, authoring BRD, SRS, URS, and FRD documents that reduced development rework by 25%.
- Mapped 25+ business processes using BPMN, documenting As-Is and To-Be states for 3 system implementations, and participated in the Change Control Board (CCB) evaluating 100+ scope changes with ROI-based impact analysis.
- Conducted stakeholder analysis that prevented \$150K+ in unplanned costs.
- Designed and executed functional and end-to-end test suites for .NET applications, covering batch mass processes, web services (SOAP), and Bizagi functionality.
- Executed tests on relational and NoSQL databases, ensuring data integrity and successful technology migration.
- Coordinated UAT cycles with RCA on critical defects.

Operations & Coordination Supervisor | VIDA Servicio de Compañía / Asistencia Hospitalaria Prepaga Jul 2008 - Jul 20

Client: Healthcare / Patient Care Services

- Supervised and coordinated operations across Montevideo and 19 regional sub-branches nationwide.
- Implemented process improvements and cross-departmental controls to optimize service delivery and team efficiency.

Administration & Corporate Sales Analyst | Ramal Viajes / Agencias de Viajes

Jul 2001 - Jul 2008

Client: Tourism / Travel Agency Operations

- Managed corporate accounts, government tenders, and end-to-end sales operations for international and regional travel packages.
- Handled customer relations, account administration, and contract negotiation for high-value corporate clients.

Paralegal / Legal Assistant | Ministerio de Defensa Nacional (Uruguay)

Jul 1996 - Jul 1999

Client: Government / Public Sector

- Paralegal / Legal Assistant supporting legal and administrative processes.
